

MOHD SAIF

Full-Stack Developer (MERN | React js & React Native | PHP/Laravel)

Lucknow, Uttar Pradesh, India | [+91 6390536586](tel:+916390536586) | mohdsaif5725@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Detail-oriented B.Tech graduate with hands-on experience building full-stack web platforms and cross-platform mobile apps and Web Application on a microservices architecture. Skilled in React.js, React Native, Node.js, PHP, Laravel, and real-time systems. Seeking to contribute to a growth-focused engineering team at a global organization.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, PHP

Frameworks & Libraries: Laravel, React.js, React Native, Node.js, Express.js.

Architecture & Real-Time: Microservices Architecture, RESTful APIs, Socket.io

Mobile & Maps: Google Maps API for live location tracking

Database: MongoDB, MySQL

Tools & Platforms: VS Code, GitHub, Postman

KEY PROJECTS

Delivery Portal App — Driver App & User App

Tech Stack: React Native, Node.js, Express.js, MongoDB, REST APIs, Socket.io, Google Maps API

- Built a delivery service with two mobile apps: a User App where customers place and track orders, and a Driver App where drivers accept and deliver orders.
- Added live map tracking (Google Maps + Socket.io) so users can see their order and driver moving in real time.
- Built the backend with Node.js, Express.js, and MongoDB, split into separate microservices (orders, notifications, location tracking) for speed and reliability at scale.

E-Commerce Shopping Application: ([Live- fmart](#)) Responsive shopping app with admin dashboard, product management, cart, and order tracking.

E-Commerce Restaurant Management System

- Built an online ordering platform with menu/inventory management and an admin dashboard, using microservices to separate order, payment, and inventory concerns.

Employee Management System (PHP, Laravel, MySQL): HR platform for employee records and attendance with role-based access control.

WORK EXPERIENCE

MERN Stack Developer

Jan 2026 – Present

Designer Birds — Lucknow, Uttar Pradesh

- Leading development of the Delivery Portal App (Driver + User) and the E-Commerce Restaurant Management System using the MERN stack, React Native, and microservices (see Key Projects above).
- Building responsive UIs with React.js, designing RESTful APIs, and managing MongoDB databases.

Full Stack Developer

Jul 2025 – Jan 2026

IT Ways Software Company — Lucknow, Uttar Pradesh

- Developed web applications using PHP, Laravel, and JavaScript with responsive interfaces (HTML, CSS, Bootstrap).
- Implemented user authentication and core backend functionalities.
